

CASE STUDIES-

PROBLEM STATEMENT-1

Problem Statement:

The web site should have a home page. The home page should contain a header containing the name of the bank and logo. On the left side there should be links for Home, About Us, Product, Offer, Apply now and Contact us. Mouse over the links should load the appropriate Dropdown list in the content area. Like, if you mouse over on **Product link** then it should display the dropdown list:

- 1) **Accounts & Deposits** under this when mouse over on this

It should display

- A. Salary accounts
- B. Saving account etc.

- 2) **Loans: Under there will be**

- A. Car Loan
- B. Home Loan Etc.

- 3) **Insurances:** under this

- A. Health
- B. Life
- C. Travel
- D. Motor etc.

- 4) **Cards:** under

- A. Debit Card
- B. Credit Card
- C. Prepaid Card Etc.

There should be footer giving the ©**copyright information** at the bottom of the page.

Page Layout:

Header: Under the home page it should display the tabs of below mention:

Home page: Under home page customer can enter credential details

Generic glance has to be displayed like Upcoming News, Offers etc.

Tab-About Us: information about the bank etc.

Tab-Products: List of products with the product details as mentioned above in description.

Tab- Offer: Types of offer available in the market:

Tab-Apply now: Credit Card, Personal Loan, Car Loan, Home Loan etc.

Tab-Contact Us: information about the contact details.

Footer Information: Copyright Information©

Requirements & Page Design:

1. Header Design:

- a. The Header should be in Brown Color with font-size 50px
- b. The header background should be light yellow color
- c. The header should have the text “**ABC Bank Corporation**”

- d. In the header the letters “**ABC**” should be bold with 60px font size and blue color.

2. Footer Design:

- A. The footer should be in font-size 20 px with blue color and olive background.
- B. The following text to be displayed “**This website and its content is copyright of ABC corporation**”

3. Page Design:

The About Us page should contain the details of ABC bank. Developers are free to add their own details.

- a. In about us page the name of bank should be shown as bold.
- b. The background color should be of white color
- c. The tabs should have written in bold and in dark blue color

Deliverables Expected:

Create a zip file contains solution for the above questions.

Tips:

ABC bank in India is planning to create a website for helping their market/customers apply for account online and many more products. They have approached you to develop the application for them. Considering the performance requirement the architects have proposed HTML for developing the web site.

PROBLEM STATEMENT-2

Problem Statement:

Create an online registration form where user needs to enter the following details:

Required to create two Pages:

First Page should be created like this as mention below:
